

Elevating Patient and Provider Engagement with Secure, Efficient, and Integrated Healthcare Document Interactivity.

Sprkz is designed to reimagine healthcare document engagement by providing a secure and user-friendly web application, giving you a faster way to view PDFs and interact with dataDocuments. All while enhancing the overall patient and provider experience.

In a time where enhancing patient engagement is paramount for successful healthcare outcomes, the ability for patients to effortlessly interact and share information with providers and healthcare organizations has never been more crucial.

Sprkz offers a solution designed to improve these interactions significantly, ensuring that collaboration across the healthcare spectrum is seamless, secure, efficient, and accurate. With Sprkz, patients and providers enjoy a simplified yet comprehensive approach to managing healthcare information, enhancing the quality of care and the overall healthcare experience.

Key Benefits

- **Faster and Secure Document Exchange:** Utilizes Stampz by zPaper, a blockchain and Web 3.0-enabled fax alternative channel, for a faster and more secure way to send, access, and receive documents.
- **Web-Based Document Viewing and Interactivity:** Enables patients and providers to view and interact with documents directly through any web browser, ensuring easy access on both desktop and mobile devices.
- **Increased Efficiency:** Leverages zPaper dataDocuments to streamline document interactions, reducing manual data entry to improve data accuracy and ensuring timeless access to care.
- **Automated Data Accuracy:** Reduces reliance on OCR, ensuring higher data quality and saving costs.
- **Improved Patient and Provider Engagement:** Facilitates better communication and data exchange between healthcare organizations.

Features and Capabilities

Smart Data Entry: Input your information once, and let our system auto-fill it across your documents—no more repetitive typing.

Markup and Notes: Leverage markup capabilities to highlight important details, add a stamp, and additional notes.

eSignature: Easily sign documents with built-in eSignature capabilities. Signatures can also be saved for future use.

Access to Health Database: Access the physician contact directory and information about available prescription drugs (name, doses, etc.) through our out-of-the-box CareQuality integration, enriching document detail and accuracy.

Redefine Your Healthcare Document Management with Sprkz

Embark on a new era of healthcare document exchange and engagement with Sprkz. Experience a smarter, faster, and more secure healthcare document management solution, all within a unified Salesforce experience, for a more streamlined workflow and improved patient engagement.
